THE GLOBAL SURGERY FOUNDATION

MEMBER DASHBOARD

Test page. The Global Nursing Foundation is not a real partner and every figure here is made up: about 163 invented accounts, tagged and processed exactly as real check-ins would be.

Global Nursing Foundation

162

Members checked in now

163 have checked in since 21 August 2026

194

Course enrolments

while checked in

99

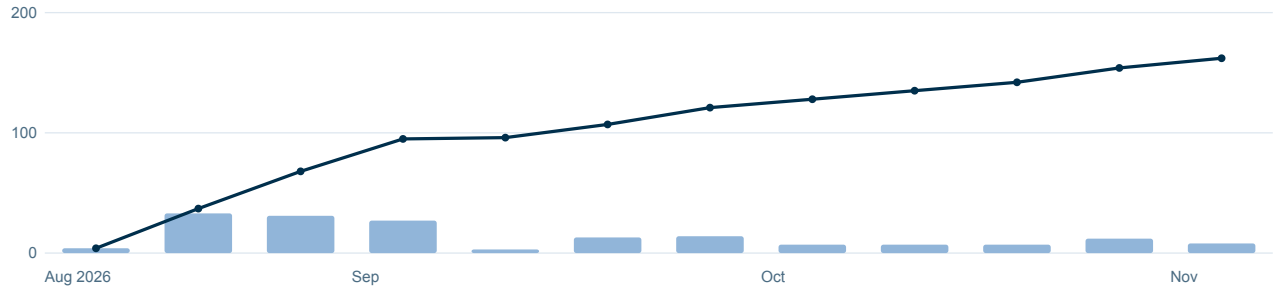

Certificates

of completion, while checked in

Over time

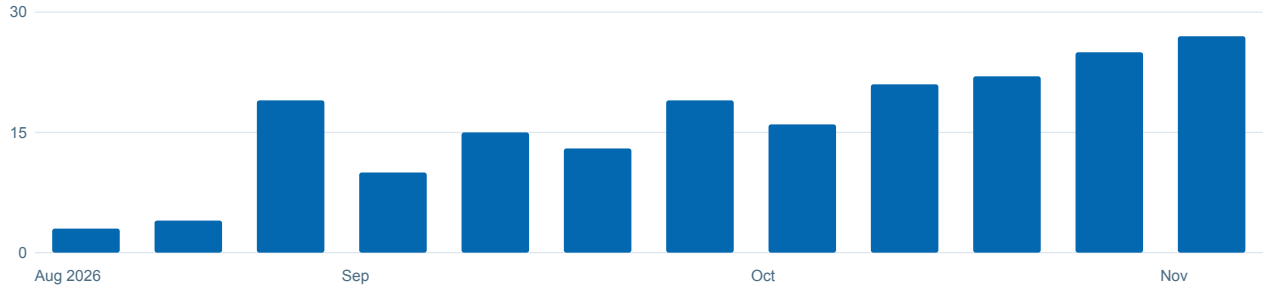

Members checked in

The line: members checked in at the end of each week. The bars: new check-ins that week (166 in all, 4 check-outs).

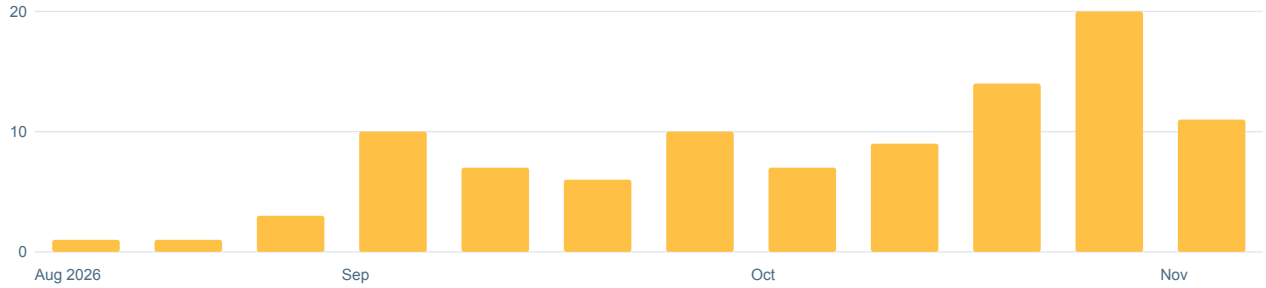

Course enrolments

New enrolments each week, while checked in.

Certificates

Certificates of completion each week, while checked in.

A week runs Monday to Sunday.

What members are learning

Course	Enrolments ▾	Certificates
Exploring Perioperative Nursing	28	fewer than 10
Perioperative Nursing E-Learning Foundational Programme (PeN Programme)	27	16

In practice	102	63%
Undergraduate	33	20%
Postgraduate academic	11	7%
Other stages and not given	16	10%

Members checked in now, from the answers on their SURGhub profiles.

What is counted

- Members are SURGhub learners who checked in with your organisation’s code. Membership is self-declared.
- Learning counts from the day a member checked in: enrolments and certificates dated before that day are not included.
- A member who checks out keeps what they did while checked in; nothing after they checked out is counted.
- Check-in and check-out dates are the day SURGhub’s records first showed the change, so they can be a day or two late.
- Only totals are shown: no names, emails or individual records. Groups smaller than 10 are not shown on their own.
- Global Surgery Foundation staff and test accounts are left out.

SURGhub, the UN Global Surgery Learning Hub, is a joint initiative of the Global Surgery Foundation (GSF) and UNITAR.
