THE GLOBAL SURGERY FOUNDATION

MEMBER DASHBOARD PREVIEW

PREVIEW · ILLUSTRATIVE FIGURES

Operation Smile

A preview of the dashboard Operation Smile would have once its members check in on SURGhub. The figures are illustrative: about 223 invented accounts, processed exactly as real check-ins would be. None of them is real member data.

SURG hub | Operation Smile

216
Members checked in now
223 have checked in since 24 August 2026

160
Started the pathway
72% of members who checked in

34
Completed the pathway
all 3 courses, with certificates

230
Pathway certificates
of completion, while checked in

Patient Safety Pathway

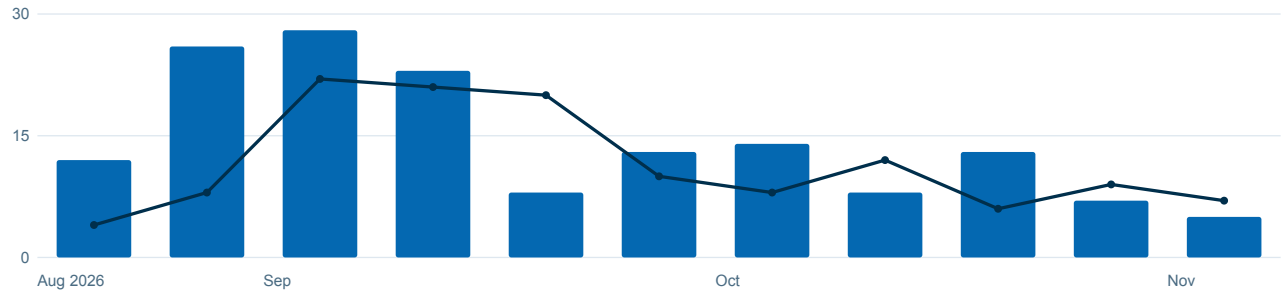

1 Safety Culture - Fundamentals of Patient Safety 2024

157
enrolled

127
certificates

81%
have the certificate

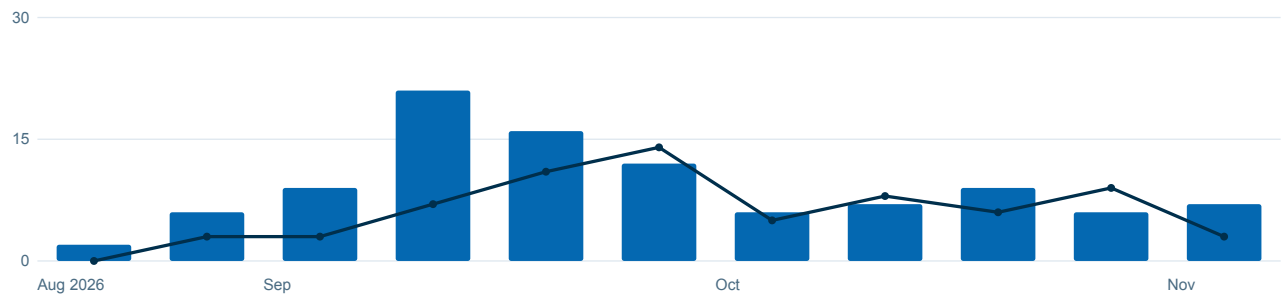

79 min
typical time spent

↓ 101 of the 127 members with this certificate (80%) enrolled in course 2.

2 Interprofessional Communication - Fundamentals of Patient Safety 2024

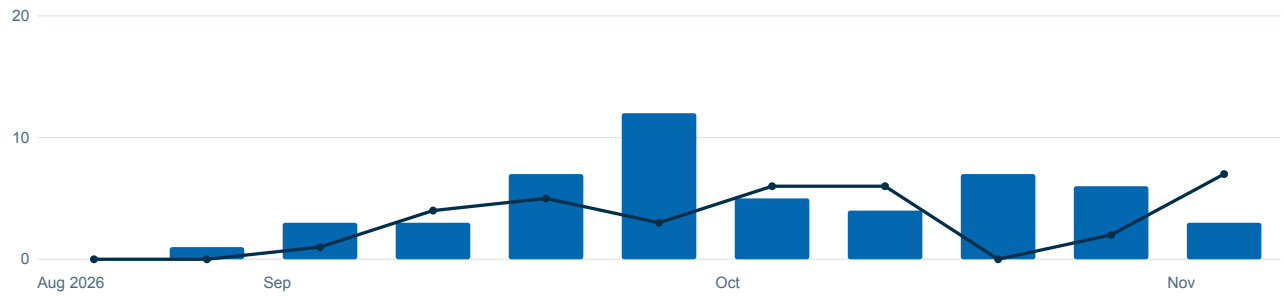

101	69	68%	80 min
enrolled	certificates	have the certificate	typical time spent

↓ 51 of the 69 members with this certificate (74%) enrolled in course 3.

3 Error Analysis and Prevention - Fundamentals of Patient Safety 2024

51	34	67%	72 min
enrolled	certificates	have the certificate	typical time spent

How far members get

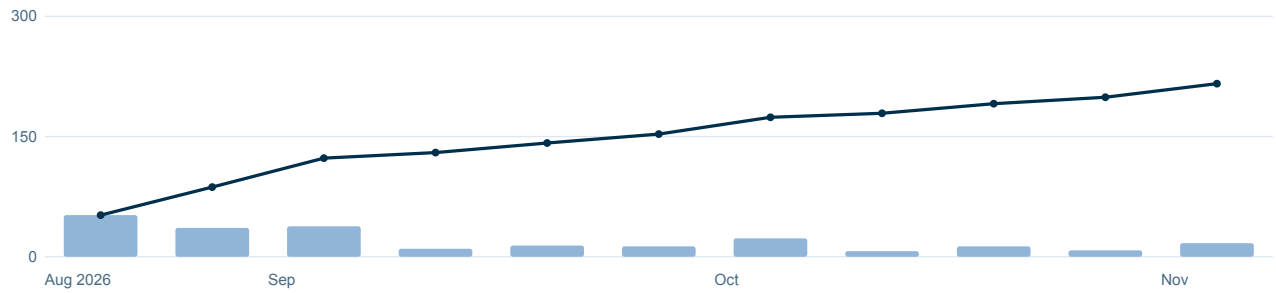

Started the pathway	160	100%
At least 1 certificate	127	79%
At least 2 certificates	69	43%
All 3 certificates	34	21%

Of the members who started the pathway. Percentages are of that group.

Over time

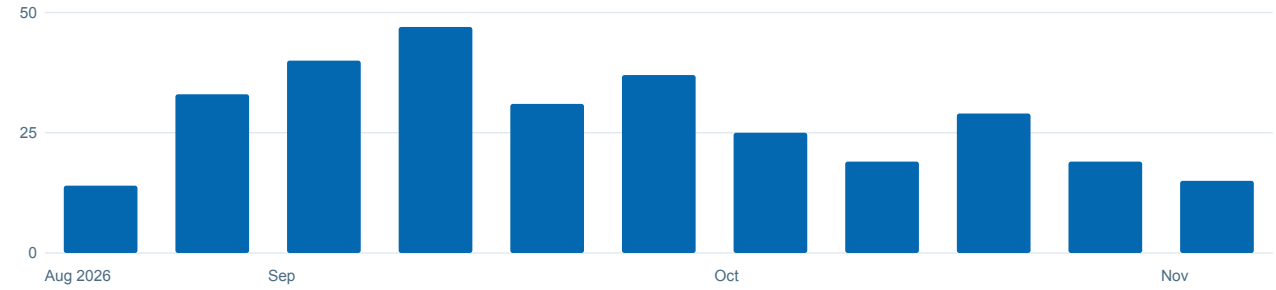

Members checked in

The line: members checked in at the end of each week. The bars: new check-ins that week (231 in all, 15 check-outs).

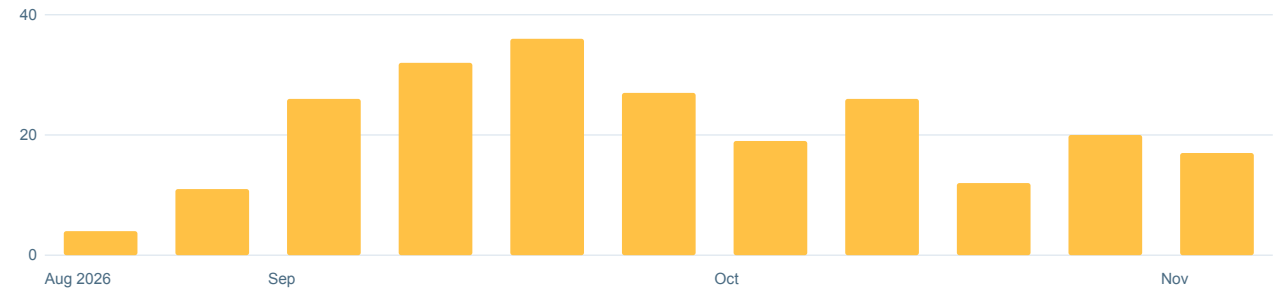

Pathway enrolments

New enrolments in the 3 pathway courses each week, while checked in.

Pathway certificates

Certificates for the 3 pathway courses each week, while checked in.

A week runs Monday to Sunday.

Everything members learn on SURGhub

Members also take other SURGhub courses. These figures count every course, the pathway included.

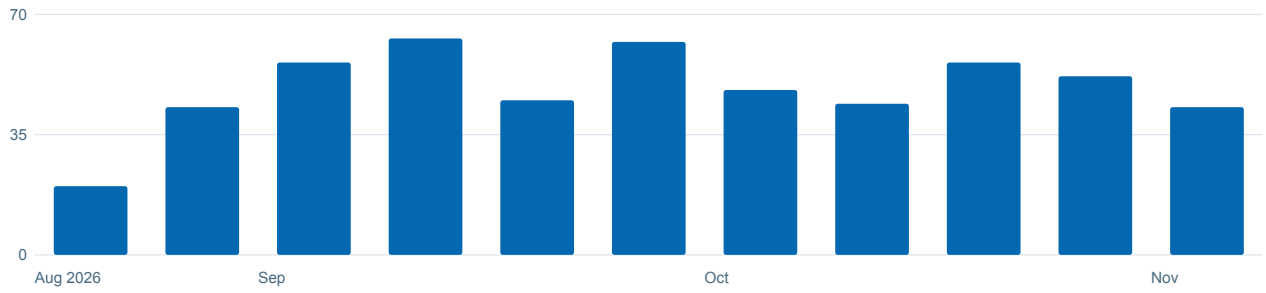

532
Course enrolments
every course, while checked in

316
Certificates
every course, while checked in

19
Courses
with at least one enrolment or certificate

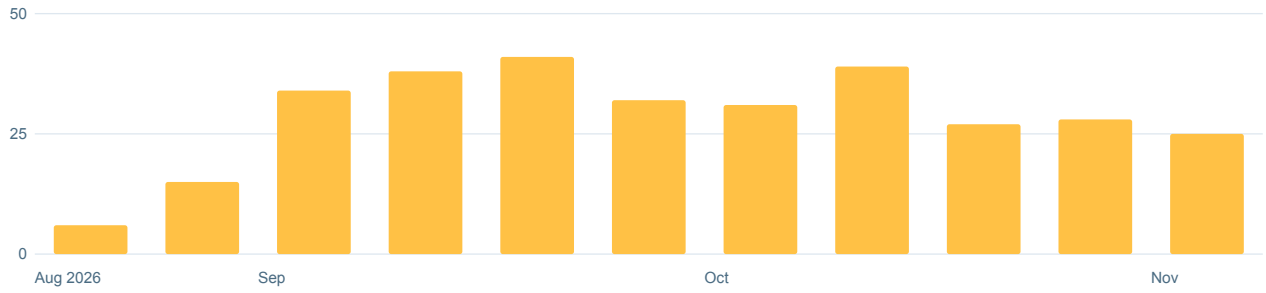

Course enrolments

New enrolments in any course each week, while checked in.

Certificates

Certificates in any course each week, while checked in.

What members are learning

Course	Enrolments ▾	Certificates
Safety Culture - Fundamentals of Patient Safety 2024	157	127
Interprofessional Communication - Fundamentals of Patient Safety 2024	101	69

Error Analysis and Prevention - Fundamentals of Patient Safety 2024	51	34
Cleft Lip and Palate	36	11
Z-Plasty	29	fewer than 10
Lip & Cheek Reconstruction	25	fewer than 10
Oral Health in Comprehensive Cleft Care	24	fewer than 10
Principles of Regional Anaesthesia in Children	22	14
Difficult Airway Algorithm 2023	17	fewer than 10
Nasal Reconstruction	14	fewer than 10
Head and Neck Reconstruction	12	fewer than 10
Essential Burn Care (EBC)	12	fewer than 10
A Crash Course in Facial Fractures	10	fewer than 10
Safe Clinical Handover	fewer than 10	fewer than 10
Emergency Checklists in Anesthesia Practice	fewer than 10	fewer than 10
Basic Principles of Wound Management	fewer than 10	fewer than 10
Burn Reconstruction	fewer than 10	0
Ear Reconstruction	fewer than 10	0

Postgraduate clinical	50	23%
Undergraduate	23	11%
Postgraduate academic	10	5%
Other stages and not given	14	6%

Members checked in now, from the answers on their SURGhub profiles.

What is counted

- Members are SURGhub learners who checked in with your organisation’s code. Membership is self-declared.
- Learning counts from the day a member checked in: enrolments and certificates dated before that day are not included.
- A member who checks out keeps what they did while checked in; nothing after they checked out is counted.
- Check-in and check-out dates are the day SURGhub’s records first showed the change, so they can be a day or two late.
- This page shows totals only. Its workbook adds one row per member and pathway course (when they enrolled, their progress, completion and certificate) under a code instead of a name: no names or emails. Groups smaller than 10 are not shown on their own on this page.
- Global Surgery Foundation staff and test accounts are left out.

SURGhub, the UN Global Surgery Learning Hub, is a joint initiative of the Global Surgery Foundation (GSF) and UNITAR.
